

## Product Information Sheet

### Rabbit Anti-goat IgG

**Catalog No.** BA1040

**Size** 5 mg

**Ig Type** IgG

**Immunogen**

Goat IgG (whole molecular).

**Storage**

Store at 4°C for frequent use;

at -20°C for at least one year.

Avoid multiple freeze-thaw cycles.

**Expiration**

One year from the day of shipment.

**Applications**

Immunohistochemistry (IHC);

Immunofluorescence (IF);

Immunocytochemistry (IC);

Western blot (WB);

ELISA

**Purification**

This antibody was purified from antiserum by immunoaffinity chromatography which removes essentially all rabbit serum proteins, except the specific antibody for goat IgG.

**Raised in** Rabbit

**Clonality** Polyclonal

**Contents**

5 mg of affinity purified specific antibody (purification >99%). Lyophilized with 1% sodium acetate.

**Usage Method**

Recommended Dilutions: Optimal working dilutions must be determined by end user. Working solution can not be preserved for long after being diluted with 0.01M PBS buffer solution (pH 7.0-7.6) or 1% sodium acetate unless adding antiseptic as 0.05% NaN<sub>3</sub> and BSA to 1%.

**Applications**

Conjugate	Application
Biotin	IHC, IC, ELISA
HRP	WB, ELISA
FITC	IF, ELISA
