

Rabbit Anti-Acetylated Lysine polyclonal Antibody (Anti-AcK)

Cat. #: P0380

Description: Affinity purified rabbit polyclonal anti-acetylated lysine antibodies. Developed using a unique technique that utilizes the acetylated KLH as immunogen and the acetylated lysine-specific antibodies were specifically purified with immobilized acetylated lysine on agarose.

Immunogen/Specificity:

Acetylated KLH conjugates.

Recognize proteins acetylated on lysine residues.

Tested: acetylated histone, acetylated BSA, and acetylated MBP, no reaction to the non-acetylated proteins.

Purification:

Acetyl-lysine on Agarose.

Applications :

ELISA, WB, IP

Formulation

250 µg/mL in TBS, 0.1% NaN₃.

Clone Number:

Isotype:

Storage and Stability: at -20°C, stable for up to three years.
